Classlist

In your course you may have the tool to find your students and your instructor. When you click on *class list*, you find all of the students in the course as well as the instructor. You will notice they may or may not have an image; you can view their last name and first name and their role in the course; you will also notice that they may or may not have a green dot. If they have a green dot, it means that they are online and that you can chat with them. You can also email anyone in the course by clicking on *email everyone* or you can email individuals by selecting individual students.
